

# **TURTLE WAX PRO**

## **CERAMIC PAINT PROTECTION**

Microscopic ceramic particles suspended in the Super Hard Shell Finish formula gently polishes and shines the paint finish. Not only that, but the ceramic particles also helps boost the hydrophobic effects of the drying agent to rapidly shed water off the vehicle surface. Super Hard Shell Finish helps produce a sleeker shiner finish while sealing in the beautiful and protected finish for months.

- **Provides months of durability and protection**
- **UV blocking properties to help protect paint finish for months**
- **Produces incredible water beading and slickness for easy maintenance**
- **Use in combination with Turtle Wax® Pro BLAZIN' GLAZE™ or ICE® INSTANT SHINE™ to amplify hydrophobic properties and reduce drying time!**
